

Bonus Lessons

About These Bonus Lessons

These bonus lessons were part of the original Discipleship Evangelism Program and covered how to teach the lessons to others. Later the program was revised and condensed down to a simplified format with easy to use questions and answers. This new version was so easy to use that having lessons on how to teach the lessons was no longer needed and those lessons were replaced with brand new lessons. We have included those original lessons, however, here in this bonus section as an additional study aid and example of how to teach the lessons as you disciple others.
